The sales prospectus with the integrated articles of association, the key information document and the annual and semi-annual reports on the fund are available free of charge by post or email from the registered offices of the investment company, the depositary bank, the paying agents and sales agents for each country in which it is sold. Additional information may be obtained from the management company at any time during normal business hours.

Subscriptions for fund shares are only valid if based on the latest edition of the sales prospectus, including its annexes in conjunction with the most recently available annual report or semi-annual report if one has been published thereafter.

Flossbach von Storch III SICAV - Multiple Opportunities II Feeder

Unaudited semi-annual report

1 October 2022 - 31 March 2023

The sub-fund Flossbach von Storch III SICAV - Multiple Opportunities II Feeder is a Feeder-UCITS in accordance with Article 77 of the Law of 17 December 2010.

The sub-fund permanently invests at least 85% of the sub-fund's net assets in shares of the fund Flossbach von Storch - Multiple Opportunities II MT (ISIN: LU1716948093), the Master-UCITS.

The latest valid annual and semi-annual reports for the Master-UCITS may be obtained from the homepage www.fvsinvest.lu or may also be requested from the management company Flossbach von Storch Invest S.A.

The company is entitled to create share classes with different rights in relation to the shares. Details of the current share classes are as follows for the reporting period:

As at 31 March 2023 there were only assets in the sub-fund currency (Euro).

¹⁾ NSFA = net sub-fund assets. Due to rounding differences in individual amounts, totals may differ from the actual value.

²⁾ Neither subscription fees nor redemption fees are charged for target fund shares. A management fee of 0.65% p.a. is calculated for units held of the target fund.

³⁾ See the notes to the semi-annual report.

Notes to the semi-annual report as at 31 March 2023 (Appendix)

1.) Introduction

Flossbach von Storch III SICAV (the “investment company”) is an open-ended investment fund, incorporated on 5 December 2017 as a “Société d’Investissement à Capital Variable” for an unlimited period of time. The investment company is governed by the provisions of Part I of the Law of 17 December 2010, as amended, relating to Undertakings for Collective Investments (the “Law of 2010”). Its articles of association were initially published on 27 December 2017 in Mémorial, Recueil des Sociétés et Associations the official journal of the Grand Duchy of Luxembourg (‘Mémorial’). The investment company is registered in the Luxembourg Trade and Companies Register under registration number R.C.S. Luxembourg B 220220.

The respective sub-fund of the investment company is a Feeder-UCITS within the meaning of Article 77 of the Law of 2010, whereas it invests at least 85% of its assets in units of the sub-fund Flossbach von Storch - Multiple Opportunities II - MT (the “Master-UCITS”), a legally dependent fund in accordance with Chapter 2 of the Law of 2010. The current version of the sales prospectus with integrated management regulations, the most recent annual and semi-annual reports and the key investor information documents of the Master-UCITS can be downloaded from the website of the management company (www.fvsinvest.lu).

The management company of the investment company is Flossbach von Storch Invest S.A. (the “management company”), a public limited company under the laws of Luxembourg with its registered office at 2, rue Jean Monnet, L-2180 Luxembourg, Luxembourg. The management company was incorporated for an indefinite period on 13 September 2012. Its articles of association were published in the Mémorial on 5 October 2012. The most recent amendment to the articles of association came into force on 15 November 2019 and was published in Recueil électronique des sociétés et associations („RESA”), the trade and companies register of Luxembourg. The management company is registered in the Luxembourg Trade and Companies Register under registration number R.C.S. Luxembourg B 171513.

The Flossbach von Storch III SICAV fund consists of one sub-fund, the Flossbach von Storch III SICAV - Multiple Opportunities II Feeder, as at 31 March 2023. Consequently, the composition of the net sub-fund assets as at 31 March 2023 of Flossbach von Storch III SICAV - Multiple Opportunities II Feeder corresponds to the combined net assets of the fund Flossbach von Storch III SICAV.

2.) Key accounting and valuation principles

This report has been prepared under the responsibility of the management company in conformity with the legal provisions and regulations prevailing in Luxembourg for the preparation and presentation of reports.

1. The net company assets of the investment company are denominated in euros (EUR) (“reference currency”).
2. The value of a share (“net asset value per share”) is denominated in the currency laid down in the annex to the sales prospectus (“sub-fund currency”) unless a currency other than the sub-fund

Notes to the semi-annual report as at 31 March 2023 (Appendix) (continued)

currency has been specified in the relevant annex to the sales prospectus in relation to any other share classes which may exist (“share class currency”).

3. The net asset value per share is calculated on each valuation day by the management company or a third party appointed for this purpose under the supervision of the depositary. The Board of Directors may decide to apply different rules to individual funds, but the net asset value per share must be calculated at least twice per month.
4. In order to calculate the net asset value per share, the value of the assets of each sub-fund less the liabilities of each sub-fund (“net sub-fund assets”) is determined on each valuation day and divided by the number of shares in circulation on the valuation day.

However, the management company can decide to calculate the net asset value per share on 24 and 31 December of a year without the calculation representing the net asset value per share on a valuation day as defined by the previous sentence 1 of this clause 4. As a result, shareholders may not request the issue, redemption and/or conversion of shares on the basis of a net asset value per share calculated on 24 and/or 31 December of a given year.

5. To the extent that information on the situation of the net assets of the investment company must be provided in the annual or semi-annual reports and/or other financial statistics in accordance with the applicable legislative provisions or in accordance with the conditions of the articles of association, the value of the assets of each sub-fund will be converted to the reference currency. Net sub-fund assets are calculated according to the following principles:
 - a) Securities, money market instruments, derivative financial instruments (derivatives) and other assets officially listed on a stock exchange are valued at the most recently available closing price that provides a reliable valuation. If securities, money market instruments, derivative financial instruments or other assets are officially listed on more than one stock exchange, the price quoted on the exchange with the most liquidity is used.
 - b) Securities, money market instruments, derivative financial instruments (derivatives) and other assets that are not officially listed on a stock exchange (or whose market price is not deemed representative, e.g. due to lack of liquidity) but that are traded on a regulated market shall be valued at a price that is not lower than the bid price and not higher than the offer price on the trading day preceding the valuation day and that the management company considers, to the best of its knowledge, to be the best possible price at which the securities, money market instruments, derivative financial instruments (derivatives) or other assets can be sold. The management company may specify for individual sub-funds that securities, money market instruments, derivative financial instruments (derivatives) and other assets that are not officially listed on a stock exchange (or whose market price is not deemed representative, e.g. due to lack of liquidity) but that are traded on a regulated market shall be valued at the last price available on this market that the management company considers, to the best of its knowledge, to be the best possible price at which the securities, money market instruments, derivative financial instruments (derivatives) or other assets can be sold. Details on this are contained in the annex to the sub-fund in question.

Notes to the semi-annual report as at 31 March 2023 (Appendix) (continued)

- c) OTC derivatives are valued on a daily basis on a verifiable basis determined by the management company.
 - d) Shares in UCI/UCITS are generally valued at the last redemption price fixed before the valuation day or at the latest available price that affords a reliable valuation. If the redemption of investment shares has been suspended or if no redemption price has been set, these shares and all other assets are valued at their respective market values as determined by the management company, to the best of its knowledge, on the basis of generally accepted and verifiable valuation principles. If the fund is structured as a Feeder-UCITS, the shares of the Master-UCITS are valued at the redemption price of the Master-UCITS on the valuation day.
 - e) If the relevant prices are not market prices, if the financial instruments listed under b) are not traded on a regulated market and if no prices have been set for financial instruments other than those listed under a) to d), these financial instruments and the other legally permissible assets will be valued at their market prices as determined by the management company, to the best of its knowledge, on the basis of generally accepted, verifiable valuation models (e.g. suitable valuation models taking account of current market conditions).
 - f) Liquid funds are valued at their nominal value plus interest.
 - g) Amounts due, such as deferred interest claims and liabilities, shall in principle be rated at the nominal value.
 - h) The market value of securities, money market instruments, derivative financial instruments (derivatives) and other assets denominated in a currency other than the relevant sub-fund currency shall be converted into the relevant sub-fund currency at the exchange rate determined using WM/Reuters fixing at 5:00 p.m. (4:00 p.m. London time) on the trading day preceding the valuation day. Profits and losses from currency transactions will be added or deducted as applicable. The management company can stipulate for individual sub-funds that securities, money market instruments, derivative financial instruments (derivatives) and other assets denominated in a currency other than the relevant sub-fund currency shall be converted into the relevant sub-fund currency at the exchange rate prevailing on the valuation day. Profits and losses from currency transactions will be added or deducted as applicable. Details on this are contained in the annex to the sub-fund in question.
6. The various net sub-fund assets will be reduced by the amount of any distributions paid out to shareholders in the relevant sub-fund.
7. Costs incurred for the establishment of the fund and the initial issue of shares will be amortised over the first five financial years to the detriment of the assets in the sub-funds that existed on establishment. The formation expenses and the above-mentioned costs, which do not relate solely to the assets of a specific sub-fund, are split between the relevant sub-fund assets on a pro rata basis by the Management Company. Expenses which are incurred in connection with the issue of other sub-funds are charged to the relevant sub-fund assets to which they are attributable and depreciated within a period of a maximum of five years after the sub-funds have been issued.

Notes to the semi-annual report as at 31 March 2023 (Appendix) (continued)

8. The net asset value per share is calculated separately for each sub-fund on the basis of the criteria provided above. However, if there are different share classes within a sub-fund, the resulting net asset value per share is calculated separately for each share class within this sub-fund on the basis of the criteria provided above. The composition and allocation of assets always occurs separately for each sub-fund.

For computational reasons, the tables included in this report may contain rounding differences of up to plus or minus one unit (of currency, per cent, etc.).

3.) Taxation

Taxation of the investment company and its sub-fund

The investment company's assets are not subject to taxation on their income and profits in the Grand Duchy of Luxembourg. The investment company's assets are only subject to the "taxe d'abonnement" currently amounting to 0.05% p.a. A reduced "taxe d'abonnement" of 0.01% p.a. is applied to (i) the sub-funds or share classes, the shares of which are issued exclusively to institutional shareholders within the meaning of Article 174 of the Law of 17 December 2010, (ii) sub-funds whose sole purpose is to invest in money market instruments, in time deposits with credit institutions or both. The "taxe d'abonnement" is payable quarterly, based on the investment company's net assets reported at the end of each quarter. The amount of the "taxe d'abonnement" is specified for each sub-fund or share class in the relevant Annex to the Sales Prospectus. An exemption from the "taxe d'abonnement" applies, inter alia, to the extent that the fund assets are invested in other Luxembourg investment funds, which in turn are already subject to the "taxe d'abonnement".

Income received by the investment company (in particular interest and dividends) may be subject to withholding or investment tax in the countries in which the relevant (sub-)fund assets are invested. The investment company may also be taxed on realised or unrealised capital gains of its investments in the source country. Neither the Depositary nor the Management Company are obliged to collect tax certificates.

Interested parties and investors are recommended to find out about laws and regulations which are applied to the taxation of corporate assets, the subscription, the purchase, the ownership, the redemption or the transfer of shares and to call on the advice of external third parties, especially a tax adviser.

Taxation of earnings from shares in the investment company held by the shareholder

Natural persons resident for tax purposes in the Grand Duchy of Luxembourg are subject to Luxembourg progressive income tax.

Companies resident for tax purposes in the Grand Duchy of Luxembourg are subject to corporation tax on the income from the fund shares.

Shareholders who are or were not resident for tax purposes in the Grand Duchy of Luxembourg and do not

Notes to the semi-annual report as at 31 March 2023 (Appendix) (continued)

maintain a permanent establishment or have a permanent representative, are not subject to Luxembourg income tax with respect to their income or capital gains from their shares in the Fund.

Prospective investors and shareholders should inform themselves of the laws and regulations applicable to the purchase, holding and redemption of shares and, where appropriate, seek professional advice.

4.) Use of income

The R and H share classes may distribute an annual dividend in accordance with Article 35 (6) of the articles of association. In this context, income may arise from claims within the meaning of the Belgian regime of taxable income per share (abbreviation: BTIS regime) not only directly but also indirectly (i.e. via holding shares in investment companies or units in investment funds such as the master vehicle, regardless of whether they make distributions themselves). To avoid misunderstandings, income from claims within the meaning of the BTIS regime in its currently valid version includes the sum of both interest and capital gains and capital losses on claims.

Detailed information regarding the use of income will, in principle, be published on the management company's website (www.fvsinvest.lu).

5.) Information on fees and expenses

Details of management, performance and depositary fees can be found in the current sales prospectus.

6.) Income and expense equalisation

The ordinary net income includes an income adjustment and an expenditure adjustment. These include, during the reporting period, accrued net income which is paid by the party acquiring shares as part of the subscription price and passed on to the party selling shares in the redemption price.

7.) Fund current accounts (cash at banks and/or liabilities to banks)

All of the investment company's current accounts (including those in different currencies) that actually and legally form only part of a single current account are designated as a single current account in connection with net fund assets. Current accounts in foreign currencies, if applicable, are converted into the currency of the investment company. Interest is calculated on the basis of the terms of the relevant individual account.

8.) Events during the reporting period

As of 30 December 2022, the sales prospectus has been revised and updated due to the Regulation (EU) 2022/1288.

There were no other significant changes and no other significant events during the reporting period.

Notes to the semi-annual report as at 31 March 2023 (Appendix) (continued)

9.) Events after the reporting period

There were no significant changes and no significant events after the reporting period.
